

Climate Response Commission Hosts 2026 Integrated Briefing on Global GHG Mitigation Projects

- Seven ministries, including the Ministry of Climate, Energy and Environment, participate to introduce ministry-level international mitigation projects and gather corporate feedback -

□ The **Presidential Commission on Climate Crisis Response** (Chair: Prime Minister Kim Min-seok, hereinafter referred to as the “Climate Response Commission”) will **hold a joint briefing session on international mitigation projects** for companies interested in such initiatives, together with relevant ministries*, on **Friday, March 20**, at the Korea Chamber of Commerce and Industry.

* Ministry of Climate, Energy and Environment (MCEE); Ministry of Trade, Industry and Resources (MOTIR); Ministry of Foreign Affairs (MOFA); Ministry of Land, Infrastructure and Transport (MOLIT); Ministry of Oceans and Fisheries (MOF); Ministry of Agriculture, Food and Rural Affairs (MAFRA); Korea Forest Service (KFS)

○ The briefing will proceed with an overview of each ministry’s **2026 budget for international mitigation projects and support measures**, as well as the **status of bilateral agreement signings and future plans**, followed by an introduction to **insurance products** related to international mitigation projects (Korea Trade Insurance Corporation), a presentation on **international organization-linked support programs** (Global Green Growth Institute, GGGI), and a Q&A session.

○ This briefing, hosted by the Climate Response Commission, has been held since 2024 and marks its **third iteration this year**. It was organized by

integrating briefings that had previously been conducted separately by each ministry, enabling companies to review key information, including ministry-specific support programs, in a single session.

- The 2026 budget for international mitigation projects **totals KRW 55.7 billion**, including “installation support projects” to secure international mitigation outcomes and “feasibility studies” to plan and identify new projects. **Detailed information on each ministry’s support programs** can be found in the respective ministry announcements.

< Status of 2026 International Mitigation Budgets by Ministry >

Category	Total	MCEE	MOTIR	MOLIT	MOF	KFS
2026 budget (in KRW 100 million)	557	251	215	39	17	34

* Total combined budget for international mitigation projects by ministry, including corporate support programs and direct projects

- **Hong Dong-gon, Vice Secretary-General of the Climate Response Commission**, stated, “**International mitigation projects** are an important means of reduction that not only contribute to **addressing the global climate crisis** but also **expand overseas opportunities for Korean companies.**”
 - He added, “Through this integrated briefing, we expect companies to **more easily understand government policies and support systems** related to international mitigation projects, and, based on this, to **expand the identification of and participation in high-quality international mitigation projects.**”
- The government plans to strengthen **administrative and technical support** across the **entire project lifecycle**, from project planning to the issuance of mitigation outcomes, to ensure that domestic companies can carry out international mitigation projects in a stable manner, while also pursuing **institutional improvements** to support these efforts.
